

# LONGHORN BEETLE CHECKLIST - Beds, Cambs, Northants, Peterborough

B.Eversham 2007

Species	UK status	BNCP status	Conservation Designation	Length mm	Habitats	In key?
<i>Acanthocinus aedilis</i>	o		Nb	12-20	conifers, esp pine	n
<i>Agapanthia villosoviridescens</i>	o	f		10-22	mainly thistles & hogweed	y
<i>Alosterna tabacicolor</i>	a	f		6-8	misc deciduous, esp. oak, hazel	y
<i>Anaglyptus mysticus</i>	o	f	Nb	6-14	misc trees and shrubs	y
<i>Anoplodera fulva</i>	r		RDB3	9-14	rotten soft wood	n
<i>Anoplodera livida</i>	o	o		6-9	various; larvae said to live in rich soil of grassland infested with <i>Marasmius oreades</i> (fairy-ring fungus)	y
<i>Anoplodera rubra</i>	o	r		12-20	conifer stumps, branches, roots	y
<i>Anoplodera sanguinolenta</i>	r		RDB3	9-12	Scots pine stumps	n
<i>Anoplodera scutellata</i>	r		Na	14-18	rotten beech	n
<i>Anoplodera sexguttata</i>	r	vr	RDB3	12-15	old oak and beech?	n
<i>Arhopalus rusticus</i>	o	o		10-30	conifers	y
<i>Arhopalus tristis</i>	r	r		13-25	pinus	n
<i>Aromia moschata</i>	o	f	Nb	13-34	willows	y
<i>Asemum striatum</i>	o	r		8-23	dead, fairly fresh pine stumps	y
<i>Callidium violaceum</i>	r	r	RDB3	8-16	misc trees	n
<i>Cerambyx cerdo</i>	ext	ext		23-53	oak	n
<i>Cerambyx scopolii</i>	ext			8-20	misc deciduous	n
<i>Clytus arietus</i>	a	a		6-15	misc., esp dead branches, posts	y
<i>Dinoptera collaris</i>	r		RDB1	7-9	rotten wood with other longhorns	n
<i>Gracilia minuta</i>	o	r	RDB2	2.5-7	woodland & scrub	n
<i>Grammoptera abdominalis</i>	r	r	Na	6-9	broadleaf, mainly oak	y
<i>Grammoptera ruficornis</i>	a	a		4-6	misc broadleaf esp ivy	y
<i>Grammoptera ustulata</i>	r		RDB3	6-9	oak & lime	n
<i>Hylotrupes bajulus</i>	r	r		7-21	misc, esp buildings	n
<i>Judolia cerambyciformis</i>	f			7-11	rotten roots of broadleaves	n
<i>Judolia sexmaculata</i>	r		Na	8-14	pine roots	n
<i>Lamia textor</i>	r	vr	RDB1	14-32	wet woodland, esp willow, poplar, birch	y
<i>Leiopus nebulosus</i>	f	f		6-10	mainly deciduous trees	y
<i>Leptura aurulenta</i>	r		Na	14-20	rotten hardwood	n
<i>Leptura maculata</i>	a	a		12-24	misc hardwood, inc hazel, ivy	y
<i>Leptura melanura</i>	f	o		6-10	deciduous trees	y
<i>Leptura nigra</i>	r	r	Na	7-10	deciduous trees	y
<i>Leptura quadrifasciata</i>	f	o		10-18	mainly rotten birch	y
<i>Leptura revestita</i>	r	vr	RDB1	8-15	deciduous trees	n
<i>Mesosa nebulosa</i>	r	r	RDB3	9-15	broadleaf, esp oak	n
<i>Molorchus minor</i>	o	o		8-14	misc trees, esp spruce	y
<i>Molorchus umbellatarum</i>	r	o	Na	5-8	misc trees & shrubs, esp rose stems	y
<i>Nathrius brevipennis</i>	r	r		4-7	broadleaf & conifer	n
<i>Oberea oculata</i>	vr	vr	RDB1	15-21	willows in fens	y
<i>Obrium brunneum</i>	r	vr		4-7	conifer trees	n
<i>Obrium cantharinum</i>	ext			5-10	misc deciduous trees, esp poplar	n

# LONGHORN BEETLE CHECKLIST - Beds, Cambs, Northants, Peterborough

B.Eversham 2007

Species	UK status	BNCP status	Conservation Designation	Length mm	Habitats	In key?
<i>Phymatodes alni</i>	o	o	Nb	4-7	trees & shrubs, esp oak, alder	y
<i>Phymatodes testaceus</i>	f	o		6-18	misc, esp. oak	y
<i>Phytoecia cylindrica</i>	o	o	Nb	6-14	umbellifers, esp bur-chervil	y
<i>Plagionotus arcuatus</i>	ext			8-20	misc broadleaf	n
<i>Pogonocherus fasciculatus</i>	r		Nb	5-8	conifers, esp pine	n
<i>Pogonocherus hispidulus</i>	o	o		5-7	misc trees	y
<i>Pogonocherus hispidus</i>	o	o		4-6.5	misc trees	y
<i>Prionus coriarius</i>	o	vr	Na	18-45	rotting roots, esp oak	y
<i>Pyrrhidium sanguineum</i>	r		RDB2	6-15	oak in parkland	n
<i>Rhagium bifasciatum</i>	a	r		14-18	misc trees, esp pine & birch	y
<i>Rhagium inquisitor</i>	o	r	Nb	12-16	dead pine	y
<i>Rhagium mordax</i>	a	f		14-20	misc broadleaf, esp oak	y
<i>Saperda carcharias</i>	o	o	Na	20-30	misc trees, esp poplar & willow	y
<i>Saperda populnea</i>	o	o		9-15	poplars & willows	y
<i>Saperda scalaris</i>	o		Na	11-19	dying & dead wood, misc	y
<i>Stenocorus meridianus</i>	a	a		15-25	misc stumps, branches & roots	y
<i>Stenostola dubia</i>	o	vr	Nb	9-14	broadleaf, esp lime	n
<i>Strangalia attenuata</i>	ext			9-17	rotten oak	n
<i>Tetropium castaneum</i>	r			8-18	conifers	n
<i>Tetropium gabrieli</i>	o	o		8-18	larch	y
<i>Tetrops praeusta</i>	f	f		3-6	misc trees	y
<i>Tetrops starkii</i>	r?	r?	RDB K	3-6	mainly ash & field maple	y
<i>Trinophyllum cribratum</i>	r			10-17	oak, birch etc	n

a = abundant, f = frequent, o = occasional, r = rare, v = very, ext = extinct

**RDB1** = Red Data Book category 1, nationally endangered

**RDB2** = Red Data Book category 2, nationally vulnerable

**RDB3** = Red Data Book category 3, nationally rare

**RDB K** = Red Data Book, category K, insufficiently known

**Na** = Nationally Scarce category A (recorded, or expected to occur in, 30 or fewer of the c.2800 10km squares in Britain)

**Nb** = Nationally Scarce category B (recorded, or expected to occur in, 31-100 10km squares in Britain)
