

CHECKLIST OF UMBELLIFERS - BEDS, OLD CAMBS, HUNTS, NORTHANTS AND PETERBOROUGH

Scientific name	Common Name	Beds	old Cambs	Hunts	Northants and P'boro
<i>Aegopodium podagraria</i>	Ground-elder	common	common	common	common
<i>Aethusa cynapium</i>	Fool's Parsley	common	common	common	common
<i>Ammi majus</i>	<i>Bullwort</i>	<i>very rare</i>	<i>rare</i>	<i>very rare</i>	<i>very rare</i>
<i>Ammi visnaga</i>	<i>Toothpick-plant</i>	<i>very rare</i>	<i>very rare</i>	<i>absent</i>	<i>absent</i>
<i>Anethum graveolens</i>	<i>Dill</i>	<i>very rare</i>	<i>rare</i>	<i>absent</i>	<i>very rare</i>
<i>Angelica archangelica</i>	<i>Garden Angelica</i>	<i>very rare</i>	<i>very rare</i>	<i>absent</i>	<i>absent</i>
<i>Angelica sylvestris</i>	Wild Angelica	common	frequent	frequent	common
<i>Anthriscus caucalis</i>	Bur Chervil	occasional	frequent	occasional	occasional
<i>Anthriscus cerefolium</i>	<i>Garden Chervil</i>	<i>extinct</i>	<i>extinct</i>	<i>extinct</i>	<i>very rare</i>
<i>Anthriscus sylvestris</i>	Cow Parsley	common	common	common	common
<i>Apium graveolens</i>	Wild Celery	rare	occasional	very rare	native ssp. absent
<i>Apium inundatum</i>	Lesser Marshwort	very rare or extinct	very rare	extinct	very rare
<i>Apium nodiflorum</i>	Fool's Water-cress	common	common	common	common
<i>Astrantia major</i>	<i>Astrantia</i>	<i>extinct</i>	<i>absent</i>	<i>absent</i>	<i>very rare</i>
<i>Berula erecta</i>	Lesser Water-parsnip	occasional	frequent	occasional	occasional
x <i>Beruladium procurrans</i>	Fool's Water-cress x Lesser Water-parsnip	absent	very rare	absent	absent
<i>Bunium bulbocastanum</i>	Great Pignut	occasional	very rare	absent	absent
<i>Bupleurum rotundifolium</i>	Thorow-wax	extinct	extinct	extinct	extinct
<i>Bupleurum subovatum</i>	<i>False Thorow-wax</i>	<i>very rare</i>	<i>very rare</i>	<i>very rare</i>	<i>absent</i>
<i>Bupleurum tenuissimum</i>	Slender Hare's-ear	absent	very rare	extinct	very rare or extinct
<i>Carum carvi</i>	<i>Caraway</i>	<i>very rare</i>	<i>very rare</i>	<i>very rare</i>	<i>extinct</i>
<i>Chaerophyllum temulum</i>	Rough Chervil	common	common	common	common
<i>Cicuta virosa</i>	Cowbane	extinct	extinct	absent	absent
<i>Conium maculatum</i>	Hemlock	common	common	common	common
<i>Conopodium majus</i>	Pignut	frequent	occasional	occasional	frequent
<i>Coriandrum sativum</i>	<i>Coriander</i>	<i>rare</i>	<i>occasional</i>	<i>very rare</i>	<i>very rare</i>
<i>Daucus carota</i>	Wild Carrot	common	common	common	common
<i>Eryngium campestre</i>	Field Eryngo	absent	very rare, prob. introd.	absent	extinct
<i>Eryngium planum</i>	<i>Blue Eryngo</i>	<i>absent</i>	<i>rare</i>	<i>absent</i>	<i>very rare</i>
<i>Falcaria vulgaris</i>	<i>Longleaf</i>	<i>very rare</i>	<i>very rare</i>	<i>absent</i>	<i>very rare</i>
<i>Ferula communis</i>	<i>Giant Fennel</i>	<i>absent</i>	<i>very rare</i>	<i>absent</i>	<i>very rare or extinct</i>
<i>Foeniculum vulgare</i>	Fennel	occasional	occasional	occasional	occasional
<i>Heracleum mantegazzianum agg.</i>	<i>Giant Hogweed(s)</i>	<i>rare</i>	<i>occasional</i>	<i>occasional</i>	<i>occasional</i>
<i>Heracleum sphondylium</i>	Hogweed	common	common	common	common

CHECKLIST OF UMBELLIFERS - BEDS, OLD CAMBS, HUNTS, NORTHANTS AND PETERBOROUGH

Scientific name	Common Name	Beds	old Cambs	Hunts	Northants and P'boro
<i>Hydrocotyle ranunculoides</i>	<i>Floating Pennywort</i>	<i>occasional</i>	<i>occasional</i>	<i>rare</i>	<i>rare</i>
<i>Hydrocotyle vulgaris</i>	Marsh Pennywort	very rare	occasional	very rare	rare
<i>Myrrhis odorata</i>	<i>Sweet Cicely</i>	<i>absent</i>	<i>rare</i>	<i>very rare</i>	<i>rare</i>
<i>Oenanthe aquatica</i>	Fine-leaved Water-dropwort	very rare	occasional	occasional	rare
<i>Oenanthe crocata</i>	Hemlock Water-dropwort	extinct	very rare	occasional	occasional
<i>Oenanthe fistulosa</i>	Tubular Water-dropwort	occasional	occasional	occasional	occasional
<i>Oenanthe fluviatilis</i>	River Water-dropwort	very rare	occasional	very rare	occasional
<i>Oenanthe lachenalii</i>	Parsley Water-dropwort	very rare	very rare	very rare	very rare
<i>Oenanthe pimpinelloides</i>	Corky-fruited Water-dropwort	absent	very rare, prob. introd.	absent	absent
<i>Oenanthe silaifolia</i>	Narrow-leaved Water-dropwort	extinct	rare	rare	very rare
<i>Pastinaca sativa</i>	Wild Parsnip	frequent	common	common	frequent
<i>Petroselinum crispum</i>	<i>Garden Parsley</i>	<i>very rare</i>	<i>rare</i>	<i>very rare</i>	<i>very rare</i>
<i>Petroselinum segetum</i>	Corn Parsley	occasional	occasional	rare	very rare
<i>Pimpinella major</i>	Greater Burnet-saxifrage	frequent	occasional	occasional	occasional
<i>Pimpinella saxifraga</i>	Burnet-saxifrage	common	frequent	frequent	common
<i>Sanicula europaea</i>	Sanicle	occasional	occasional	occasional	occasional
<i>Scandix pecten-veneris</i>	Shepherd's-needle	very rare	occasional	very rare	very rare
<i>Selinum carvifolia</i>	Cambridge Milk-parsley	absent	very rare	absent	absent
<i>Seseli libanotis</i>	Moon Carrot	very rare	very rare	absent	absent
<i>Silaum silaus</i>	Pepper-saxifrage	frequent	occasional	occasional	occasional
<i>Sison amomum</i>	Stone Parsley	frequent	occasional	frequent	occasional
<i>Sium latifolium</i>	Great Water-parsnip	very rare or extinct	occasional	very rare	rare
<i>Smyrniolum olusatrum</i>	Alexanders	occasional	occasional	occasional	occasional
<i>Smyrniolum perfoliatum</i>	<i>Perfoliate Alexanders</i>	<i>absent</i>	<i>very rare</i>	<i>very rare</i>	<i>absent</i>
<i>Thyselium (Peucedanum) palustre</i>	Milk-parsley	absent	very rare	extinct	absent
<i>Torilis arvensis</i>	Spreading Hedge-parsley	rare	rare	very rare	very rare
<i>Torilis japonica</i>	Upright Hedge-parsley	common	common	common	common
<i>Torilis nodosa</i>	Knotted Hedge-parsley	occasional	frequent	occasional	occasional
<i>Trachyspermum ammi</i>	<i>Ajowan</i>	very rare or extinct	<i>very rare</i>	<i>absent</i>	<i>absent</i>
Number of taxa recorded		52	62	47	50

CHECKLIST OF UMBELLIFERS - BEDS, OLD CAMBS, HUNTS, NORTHANTS AND PETERBOROUGH

NOTES

Nomenclature follows *New Flora of the British Isles* 3rd ed. (C.Stace, 2010, CUP)

This list omits obscure aliens/casuals, subspecies, species absent from all four recording areas and some hybrids

Species in italics are not native (neophytes) to the country according to *New Atlas of the British and Irish Flora* (Preston, Pearman, Dines. OUP, 2002).

Archaeophytes have been treated as if native (eg. *Aegopodium*, *Foeniculum*, *Smyrniolus atrum*)

Many aliens are non-persistent casuals from bird seed, escapes from cultivation etc

Abundance categories

common

frequent

occasional

rare - less than 7-8 sites/tetrads

very rare - less than 3-4 sites/tetrads

extinct - not recorded since c.1950 or known to no longer occur

absent - not recorded from the vice-county

ver 1.3 September 2017
