

# Cuckoo Migration Project

Go to : <https://www.bto.org/our-science/projects/cuckoo-tracking-project>

My cuckoo's name is: .....

Which country is my cuckoo in now?

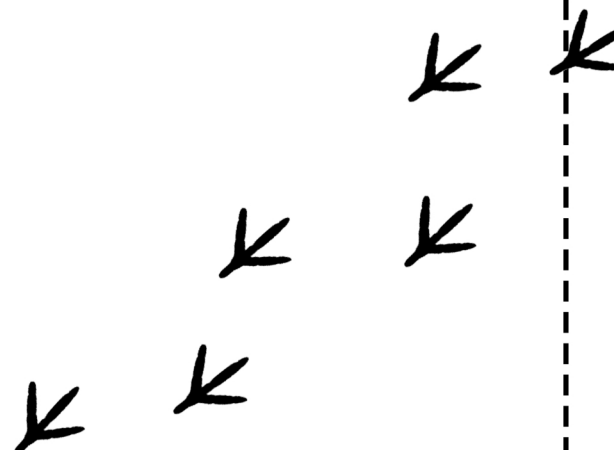

How far did my cuckoo travel since yesterday (or the last time I checked)?

*Google Earth is a really useful tool for calculating distances- ask your grown up if you can download it to help you.*

What is the habitat like in this country?

Do you think the cuckoo will stay here long (think about how much food there might be and any dangers in this area)? Why?

How long did my cuckoo stay here?

Bedfordshire  
Cambridgeshire  
Northamptonshire
