

How to make a pooter

Wildlife
Watch

What you need:

- plasticine 
- jar with lid 
- 40cm of clear, flexible plastic tubing, 7-10 mm wide (try a big DIY store) 
- a small piece of gauze, net curtains or tights 
- elastic band 
- green and red stickers or tape 

- 1 Make 2 holes in the lid (ask an adult to help with this) 

- 2 Cut 2 lengths of tubing about 15cm and 25cm long and poke them through the holes. 

- 3 Put the gauze over the end of the shorter tube and mark the other end with a green sticker/tape. 

- 4 Mark the longer tube with a red sticker/tape (red means 'don't suck this tube'). 

- 5 Put some plasticine around the tube holes to make them airtight. 

Now you're ready to pooter!
