

SPA Champion Activity Book

Name:

What is an SPA?

An SPA is a Special Protection Area. It is a big lake that birds love to visit over the winter.

Birds come from cold places like Scandinavia and Russia to rest and eat in the winter.

There are lots of grass, worms and yummy insects at these lakes.

My dog is on a lead because dogs can scare birds.

Thank you!

Match the logo

The logos show who can use the route. Can you match the logo to the user?

Bikes

Dogs on leads

Walkers

Horses

Kayaks

Prams

Narrowboats

Spelling test

Can you fill in the missing letters to spell the picture.

R _ v _ r

S _ a _

W _ n t _ r

L _ _ e

Match the bird

**Clue: the answers are in
your Top Trumps pack**

Wigeon

Great white egret

Snipe

Heron

Mute swan

Golden plover

Spy

**Next time you are out in nature,
draw or write down what you see.**

Birds	Insects

Connect the Dots to Discover the
Pollinator

Thanks to the wonderful work of butterflies and other animal pollinators, the world's flowering plants are able to reproduce and bear fruit, providing many of the foods we eat, the plant materials we and other organisms use, and the beauty we see around us.

As an SPA Champion, I promise to:

1. Learn about the SPA

**2. Act responsibly within the
SPA**

**3. Spread my SPA knowledge
with others**
